

10:12:01 From Linda Olsen : Thanks for attending everyone  
10:12:27 From Linda Olsen : Schedules on pg. 15 on appendix  
of MOU document  
10:12:41 From Mercedes Holmes : There is a not enough  
language in regards to SPED in the MOU. We are being told we are  
limited to google meet. However Zoom has remote access which our SPED  
students need We are not providing them with availableaccomadations to  
meet their needs  
10:13:46 From Dgheen : @Mercedes our district has purchased  
an advanced option of meets which they will be discussing next week  
during the trainings. There are features that make it more "zoom-y"  
10:14:25 From Daniel Paight : @mercedes what feature(s) of  
remote access do you have in mind?  
10:15:46 From Mercedes Holmes : sharing our screen with the  
students, allowing us to draw/write on the whiteboard  
10:16:02 From Pat Smith : Do we have any idea what the  
requirements/ threshholds will be to transition to the 25% and 50%  
hybrid models?  
10:16:26 From Mercedes Holmes : Many of our students are  
familiar with zoom and it will take additional time to teach them the  
new platform  
10:16:30 From James Walsh : it will be a conversation had in  
collaboration between us and district Pat  
10:16:34 From Kristin DeWit : I didn't see anything in the  
MOU that said we were not allowed to use Zoom... but this seems to be a  
topic of confusion. Are we allowed to use Zoom?  
10:16:37 From Daniel Paight : @mercedes, google has a similar  
feature for interactive screen sharing: 'jamboard'  
10:16:43 From Wendy Foley : Is there going to be an extra  
effort made to ensure that we have email addresses and phone numbers  
for all students/parents?  
10:16:48 From Elizabeth Fiorito : Yeah, how do we do about  
absences in virtual learning.  
10:16:52 From James Walsh : technology is asking us to use  
meet because zoom has issues onhrombooks  
10:16:57 From James Walsh : on chromebooks  
10:17:00 From Mercedes Holmes : SPED students will need at  
least 2 weeks if not more to onboard all the technology..especially  
when they/parents are also ELL  
10:17:22 From James Walsh : not allowed to use zoom with  
students  
10:17:41 From James Walsh : Mercedes, there is time every day  
for prep and contact  
10:17:53 From Dgheen : @pat that will depend on the numbers  
and regulations from the state.  
10:17:58 From James Walsh : absences, we get a sub  
10:18:02 From Linda Olsen : @Wendy. Hopefully through  
registration, records will be updated.  
10:18:26 From Elizabeth Fiorito : No, student absences  
10:18:30 From Monica : 10.8 and 10.12 both state  
"certificated unit members that do not have students rostered to them,  
shall act in a supporting role, including serving as a substitute  
teacher when one is not available." I am an elementary General Music  
teacher, and do not have students rostered to me. Does this provision  
mean I can be pulled as a sub?  
10:18:31 From Griselda Covarrubias : How will students

attendance be handle?

10:18:44 From James Walsh : yes Monica

10:18:56 From James Walsh : sync attendance is did they show

10:18:58 From Michael Abeyta : Do you have to wear a mask even if you are the only one in your classroom?

10:19:02 From James Walsh : async attendance is did they do it

10:19:10 From AJ Plinski : what is the district's definition of, "confirmed Covid-19 infection," and what is the District's definition of, "direct exposure?" For instance would we be notified if a member of the custodial staff who cleans our room tests positive for Covid 19? MOU 9.14.2

10:19:14 From Dgheen : no Michael if you are alone you do not need to wear a mask.

10:19:18 From James Walsh : @Michael, the language would suggest that, but short answer no

10:19:20 From Jessica Detwiler : Will teachers be getting laptops?

10:19:31 From James Walsh : there is a plan to get every teacher a thinkpad

10:19:37 From James Walsh : I am not sure on timeline

10:19:55 From Michael Abeyta : 5.1.5 States "Daily live interaction shall occur" not just on synchronous days.

10:20:01 From James Walsh : confirmed case is positive test Art

10:20:25 From Daniel Paight : art, the cdc has criteria for what constitutes an 'exposure'

10:20:35 From James Walsh : @Michael, I agree... the district claims that having live contact with 3 teachers meets the letter of the law

10:20:41 From Michael Abeyta : @James: The MOU states if you are on campus you have to wear a mask, it does not make exceptions

10:20:44 From Anne Rizzacasa : Is the weekly engagement record referenced in 7.1 another form other than aeries or google classroom?

10:20:44 From AJ Plinski : so only within 6' for 15 min?

10:20:52 From Dgheen : Michael you have alt live days to ensure daily live interaction is taking place everyday.

10:20:59 From Griselda Covarrubias : when will we know how many kids will be transferred out of our schools to the online options?

10:21:13 From Daniel Paight : art: yes

10:21:22 From James Walsh : @Michael, you are correct. however, The understanding was when you are around others

10:21:35 From Bianca : do absolutely need to adopt the synch/asynch models? can we move the periods around? for example: 1-3 on Monday and Thursday then 4-6 on Tuesday and Friday

10:21:58 From Linda Olsen : @ Tamara Long. Can you mute? Sounds are being picked up Thanks.

10:22:08 From James Walsh : @Bianca, the district understanding is that we will be following those modes

10:22:08 From AJ Plinski : so there is no requirement for us to be notified if the person who cleans our room tests positive for Covid-19, correct?

10:22:14 From James Walsh : models

10:22:19 From Bianca : thank you

10:22:55 From James Walsh : Good question Art... it may depend on how CSEA contract is written

10:23:40 From Dgheen : @anne the district is working on streamlining this process to make sure we have accurate records but not spend all of our time recording data

10:23:47 From Michael Abeyta : What will count for attendance? They are there the whole time? Show up for 5 min? What if they come late? Will there still be tardies? What if a student bails out after 15 minutes?

10:24:13 From Bianca : do we need to have participation in our grade books specifically?

10:24:13 From James Walsh : Michael, normal attendance law applies for synchronous time

10:24:43 From Marissa Forget : For the asynchronous days, is it a daily attendance, or is this something that you can reconcile on Friday for the week?

10:24:43 From Karen Bost : @Art when they notify someone has tested positive you will not know who only that someone on your campus has tested positive. When the county notifies a District they only state the time frame and someone

10:25:32 From James Walsh : @Marissa, the district is creating the process, but I would say you have that discretion as a teacher

10:25:44 From Mercedes Holmes : I am on the training team for SPED. They are having us focus more on Designing a curriculum plan as opposed to the tech part. I think this is counterproductive and not what the teachers need right now

10:25:45 From Anne Rizzacasa : how long does it take for the county to notify the school?

10:26:03 From James Walsh : @Marissa, but keep in mind that the law is aimed to have kids engaged with school for a minimum of 240 minutes per day

10:26:45 From James Walsh : @Mercedes, that is a good point, did you bring it up to your training group?

10:27:07 From James Walsh : @Anne, it varies, especially when numbers are up

10:27:07 From Mercedes Holmes : Yes we just get told this is what the district wants

10:27:12 From AJ Plinski : @Karen - is the district mandated to notify us or is that just a guideline that they can ignore?

10:27:19 From Karen Bost : @Anne hard to say. It usually not immediate due to the fact they have to trace where the individual was and who they may have had contact with

10:27:44 From Mercedes Holmes : SPED would benefit from a Google site as opposed to google classroom

10:28:10 From James Walsh : @Mercedes, you can have your google classroom direct them to your site

10:28:11 From Brett Hall : I can tell you that at least for the HHS Summer School covid exposure, it NEVER got reported to staff by Admin

10:28:22 From Elizabeth Fiorito : True that, Brett

10:28:23 From Karen Bost : @Art section 9.14.2 states the District shall notify the Union.....

10:28:31 From James Walsh : the MOU requires they report to the Union

10:28:35 From Dgheen : @ Mercedes great! Link your google site to your google classroom :]

10:29:33 From AJ Plinski : @Karen only for a, "direct exposure" - the concern is that what happened during summer school is not repeated.

10:29:46 From Mercedes Holmes : Yes I will connect them

10:29:59 From Anne Rizzacasa : It is essential for a covid outbreak to be communicated quickly especially in our community that is mostly high risk

10:30:47 From Elizabeth Fiorito : How are they doing Home Hospital?

10:31:00 From Lauren Valdez : We cannot require students complete the asynchronous assignment in that "period" slot?

10:31:03 From Karen Bost : @Art it also states should it learn of a Confirmed COVID infection....

10:32:32 From Brett Hall : as teacher, I think you can put date/time turn in requirements for assignments, whether synchronous or async

10:32:33 From James Walsh : @LAUREN YES YES YES... that is exactly what I recommend!!  
I will have a turn in at end of period or absent policy

10:32:40 From Sarah Leon : will we need to notify admin if we are going to be onsite?

10:32:41 From AJ Plinski : @Karen - thank you

10:32:57 From James Walsh : @Sarah, yes

10:33:04 From Lauren Valdez : @James PERFECT!!!

10:33:04 From James Walsh : the specifics are being worked out

10:34:33 From Anne Rizzacasa : Are gen ed teachers required to attend IEP meetings? How are they going to facilitate because the model of taking teachers from synchronous time won't work.

10:34:53 From James Walsh : @Anne, the aim is to take from async

10:35:00 From Michael Abeyta : @James: If we have something due at the end of the period for asynchronous days, doesn't that defeat the purpose of limiting screen time? Why not just have synchronous every day?

10:35:49 From James Walsh : Michael, you speak my language. I cannot explain the district reasoning on this issue

10:35:55 From Lauren Valdez : Are teachers who do not have rostered students assigned to them going to be pulled for IEPs? or are they going to pull teachers who do have students?

10:36:36 From James Walsh : @Lauren, I would think the gen ed teacher who has the student rostered would be the first choice

10:36:58 From Lauren Valdez : Agreed on that. but it

10:37:25 From Troy Berry : When switching from completely online to like the 25% in class, is this going to have a lead time or several weeks notice?

10:37:35 From James Walsh : @Michael, personally I plan on giving async assignments and then letting everyone know I will be in a meet online for anyone who wants to work together

10:37:50 From Lauren Valdez : but I'm referring to that IEPs that have no Gen Ed students. seems like there are a few of use that are often called on to attend when we don't have the student, for those will they call on teachers without students?

10:37:56 From James Walsh : @Troy, we could not get them to commit to a specific number, but yes

10:38:05 From Lauren Valdez : sorry no Gen Ed teacher\*

10:38:07 From Melissa Smith : @Karen Bost - who confirms a case?

10:38:19 From James Walsh : @Lauren, good idea...like a site coach for instance?

10:38:27 From James Walsh : they would be curricular experts!

10:38:41 From Lauren Valdez : 🙌

10:38:45 From Salsbury : @Lauren it is always the first choice to ask a GenEd teacher who has contact with the student. If a student only has PE & Art we sometimes might like to have a grade level content teacher to share the expectations of a grade level classroom.

10:39:16 From Karen Bost : @Melissa a staff member reports per 9.14 or it could come from the County

10:39:17 From Salsbury : @Lauren that can be a real eye-opener for parents & students. But it would definitely be nice to be able to collaborate on what we are looking for before hand

10:39:33 From Heather Ramsey : So it's 10 days for lesson plans for every single course we teach by 8/31? So that's 40 daily plans for someone with 4 preps.

10:39:55 From Elizabeth Fiorito : When will we get our students info to add them to Google Classroom - so that we can email them well in advance, etc

10:40:07 From James Walsh : @Heather, I would make a skeletal 1 day, and repeat 9 more times

10:40:07 From Melissa Smith : @Karen so confirmation does not have to come from the county? where is that in writing?

10:40:50 From Marissa Forget : Will a sub have access to a teacher's google classroom for the synchronous days as needed outside of covid?

10:40:54 From Dgheen : @heather the district has teacher teams already helping to plan out the 1st 6 weeks of many classes. these trainings are next week. but it would be best to do a very generic 1 for all courses.

10:41:01 From James Walsh : @Liz, I already did, I will later add it to aeries

10:41:18 From Michael Abeyta : Is there going to be a Q&A portion during this time or do all questions need to be posted in the chat while listening to whoever is presenting?

10:41:46 From James Walsh : Michael, Q&A at end

10:41:49 From Kristin DeWit : Is 30 minutes long enough for students to go to the schools (assuming we are still providing lunch), get their lunch, eat it, and then come back in time for their class?

10:42:31 From Karen Bost : @Melissa this MOU simply states we will be notified, District will follow guidelines of and lists a number of organizations. HTA will also be able to have a hand in protocols as per 9.22

10:42:38 From Michael Abeyta : @Dgheen: I am on one of those teams but we are more focused on showing what we plan on doing and not necessarily providing lessons that can be used at any point during the year

10:42:51 From Heather Ramsey : @Danelle true but I am a singleton AP and elective teacher so there will not be common 6-week plans for those.

10:43:04 From Linda Olsen : @Kristin. There will be a meal

distribution on certain days, similar to spring/summer for when we're 100% DL

10:43:43 From James Walsh : @heather, I would do a simple generic plan like you would do for independent study

10:43:54 From Dgheen : @michael and heather I too am on a team but we are planning day to day for our content in case teachers want resources

10:44:17 From Pat Smith : I am concerned about the alternating schedule and teaching AP students. Is there flexibility in the alternating schedule to do more synchronous learning with AP students? I guess my question is do we have the option to do synchronous learning on our asynchronous days?

10:45:13 From Karen Bost : @Pat that was discussed and the district wanted the scheduled

10:45:37 From Karen Bost : @Pat the schedule followed

10:47:10 From Bianca : for attendance: will there still be a robo call that students are missing classes?

10:48:34 From Angela wohlfarth : Will the synchronous class last the entire 40 minutes?

10:48:49 From James Walsh : @Angela, 45 and yes

10:49:22 From Dgheen : @ Angela you as the teacher can do how much you want for your sync time. there is not a min requirement

10:49:49 From Angela wohlfarth : Thank you

10:49:55 From Anne Rizzacasa : 9.17 says that there are more requirements for a lab and most science teachers classrooms are a lab. Are there additional requirements for science rooms specifically?

10:50:01 From James Walsh : @Dgheen and Angela sync time has to be the whole 45 and aync has to be the whole 45

10:50:22 From Jennifer Halstead : are we taking attendance on asynchronous days>

10:51:02 From danielle : Can I just hold my class everyday?

10:51:23 From Angela wohlfarth : On synch days then no outside work should be assigned? I'm just trying to wrap my mind around the 240 minutes/day

10:51:33 From James Walsh : @Jennifer, yes, completion of work

10:51:42 From James Walsh : angela that is a minimum

10:51:49 From James Walsh : you can still assign homework

10:52:00 From Elizabeth Fiorito : So we can go to school some days and work from home some days?

10:52:01 From Angela wohlfarth : Ok, thank you.

10:52:15 From James Walsh : @Elizabeth, yes

10:54:55 From Pat Smith : so we are allowed to still host synchronous learning during the asynchronous day?

10:55:03 From James Walsh : if it is optional pat

10:56:47 From Pat Smith : so just a weird thing. . . in six weeks we will have met more synchronously with one group of students if the first week is all synchronous

10:56:57 From Janie Washburn : i am going to have a google form for asynchronous days that students fill out to show that they checked into google classroom and i will ask them questions about their assignment. they will have a deadline to do the google form by.

10:57:13 From Bianca : good idea Janie

10:57:13 From seanmathews : I agree with Janie

10:57:26 From Troy Berry : Should we update our syllabi with online guidelines/policies?

10:57:26 From Janie Washburn : pat, it's 12 and 12 actually

because of Labor Day. i counted yesterday  
10:57:47 From Pat Smith : ahhhh. . good to know. . .we are still having holidays!!!  
10:57:49 From James Walsh : @Janie, as long as the async is given time values that meet the 45 minutes  
11:00:20 From Janie Washburn : yes, it basically would be done by the student at the end of their asynchronous period.  
11:00:22 From Anne Rizzacasa : Is there a plan for new furniture to aid in social distancing procedures?  
11:01:41 From Karen Bost : @Anne the answer is no as it is provided in your classroom. The District wanted everyone on campus we pushed for the option. That being said they are not willing to provide anything additional  
11:02:06 From Karen Bost : Not certain if that answered your question  
11:02:54 From Anne Rizzacasa : @Karen yes. wish it was a different answer though ;)  
11:03:06 From James Walsh : @Anne, us too!  
11:03:24 From AJ Plinski : thank you for the great work!  
11:03:33 From Karen Bost : I understand. It was important for people to have the option and that was a win.  
11:03:40 From Angela wohlfarth : At this time, Google Meet does not offer breakout sessions for small group discussions. May we use Zoom then?  
11:03:58 From Courtney Belsher Lepis : So, let me get this straight @James Walsh, when we return after being distanced, we should expect no different classroom furniture to continue physical distancing?  
11:04:01 From James Walsh : @Angela, I wish!!!!  
11:04:12 From Isabel Diaz : clarify sick leave and subs, please  
11:04:16 From Elodia : @Angela Google Meet added that feature  
11:04:24 From Rina : Is it guaranteed that the first 6 weeks are online? Or could that change?  
11:04:25 From James Walsh : @Courtney, correct  
11:04:27 From gregory sprenkle : Thank all of your for fighting for us. It looks like this has been a ton of work! Wow!  
11:04:47 From James Walsh : @Courtney, except those that would receive the "plexiglass" dividers  
11:04:58 From Angela wohlfarth : @Elodia, is it live now? I thought I wouldn't be active until the end of Sept?  
11:05:04 From Karen Bost : @Rina it will determine if we are off the watch list  
11:05:05 From Jamie Killebrew : I might have missed this, but if we are in our classroom by ourselves do we have to wear a mask?  
11:05:17 From Janie Washburn : no Jamie  
11:05:48 From S Arthofer : In the April emergency MOU, language was included as, "Report verifiable inappropriate online student behavior to your site administrator. You will be held harmless by inappropriate student behaviors." Why was there no lanuguage similar to this placed into the proposed MOU?" And, what type of liability is placed on teachers if we miss an inappropriate student or family member behavior during synchronous time?  
11:06:03 From Courtney Belsher Lepis : @James Walsh - is

there a way to find out who will get the plexiglass?

11:06:32 From Michael Abeyta : @Arthofer - Great point!  
11:06:36 From James Walsh : I would ask principal before  
return  
11:07:15 From Heather Ramsey : @Susan yes!!  
  
11:07:55 From Elodia : @Angela it's my understanding that  
it's ready to go now  
11:08:13 From Angela wohlfarth : Thank you  
11:08:17 From James Walsh : elodia, it wasn't yesterday  
11:08:19 From Courtney Belsher Lepis : @Artofer - I agree  
good point!  
11:08:28 From James Walsh : I was told November maybe  
  
11:08:52 From Bianca : when will the schedule for next week  
come out?  
11:08:57 From seanmathews : Any discussion of chemical splash  
proof goggles? We currently have 1 set per class which are sanitized  
with a UV light. Wouldn't it be better for each student to have  
his/her own?  
11:09:55 From Lauren Valdez : Can we require cameras to be  
on? Or require them to be off? Is this something we can dictate?  
11:10:24 From Dgheen : @lauren it is your choice as the  
teacher of record :]  
11:11:29 From Elodia : James I didn't realize it was a work-  
around, sorry! I just received an email saying it was available now...  
11:12:03 From Linda Olsen : @Sean. Maybe pose question of  
supplies options to the Science Academic coaches to see if there are  
extra funds available to eliminate shared supplies  
11:12:22 From Frank : If we assign various Google Meets to do  
groups, is it ok if we are not monitoring students while with a  
different "Group"? Seems like leaving students alone in the classroom.  
11:12:58 From Janie Washburn : if they are on a school chrome  
book i believe it works.  
11:13:30 From Liwanag Ferre : Can we adjust the  
synchronous/asynchronous days by subject esp. for my freshmen who  
needs more clarification on the start of the week?  
11:14:12 From Robert Koerner : My students in Multimedia  
can't use Adobe Suite on Chromebooks. If the District can't provide  
Window based computers for my students, how much can the District  
request that I change my Articulated course in order to adapt to just  
Chromebooks?  
11:14:30 From Janie Washburn : if you have a student not  
showing up in goguardian then privately email them that they need to  
be logged in for attendance  
11:14:47 From Courtney Belsher Lepis : I think using it for  
attendance is a great way to nail two birds  
11:14:49 From Courtney Belsher Lepis : With one stone  
11:15:39 From Karen Bost : @Robert work with Jason on that if  
yours is a course specific issue  
11:15:46 From Skyla Stuck : @mary what is it called??  
11:16:17 From Malaka Mallery : Google forms requires you to  
log into student email if you set the form as protected for an  
assignment  
11:16:38 From Dgheen : @Liwanag we need to follow the current  
schedule but you have a "group time everyday you can invite studetns

to as well as offering "support" during the ascy time  
11:16:40 From Bianca : we don't have illuminate anymore? what  
are we switching to?  
11:16:55 From Bianca : and will we have training for it?  
11:17:10 From S Arthofer : Were there any other conditions  
bargained for regarding A/C filtration. 9.13 states filters will be  
replaced only twice a year. This seems to be "normal" maintenance.  
Are there any other precautions the district should be taking to  
ensure safety regarding A/C and heating ventilation?  
11:17:10 From Tamara Long : what is the extension called?  
please type  
11:17:18 From Janie Washburn : Bianca It's called OTUS and  
there is a training on the TechFest day  
11:17:26 From Bianca : thanks  
11:17:47 From Liwanag Ferre : @Dgheen thanks!  
11:17:52 From Pat Smith : Just curious what happens if we  
vote this mou down?  
11:17:58 From Courtney Belsher Lepis : Is there any idea or  
sense of consensus for how long we will be distanced for?  
11:18:35 From Karen Bost : @Arthofer we spent a great deal of  
time on A/C ventilation they were not willing to commit to anything  
more.  
11:19:52 From Anne Rizzacasa : Thank you for your hard work  
bargaining team!!  
11:19:55 From Elodia : @Tamara I believe it's just called  
Google Meet Attendance  
11:20:52 From Pat Smith : thank you  
11:21:21 From Tamara Long : Thank you Elodia  
11:22:09 From Diana Klos : Thank you all for your hard work  
11:23:11 From Janie Washburn : thank you!  
11:23:13 From Mary Kleinvachter : Thank you for your hard  
work on this MOU  
11:23:13 From Kacy Simpson : Thank you  
11:23:16 From S Arthofer : Thank you.  
11:23:17 From Elizabeth Fiorito : Thank you!  
11:23:17 From Susan Lawler : Thank you!  
11:23:18 From Bianca : thank you!  
11:23:18 From Liwanag Ferre : Thank you!  
11:23:24 From Jill : Thank you!  
11:23:24 From Tara Andreassen : Thank you  
11:23:25 From Lauren Valdez : Thank you.  
11:23:25 From Heather Ramsey : Thank you!  
11:23:26 From iPhone : Thank you for everything!!!!  
11:23:26 From Carole Taylor : Thank you!  
11:23:29 From Skyla Stuck : thank you!!  
11:23:35 From Elodia : Thank you!  
11:23:43 From Erick Zavala : Thanks for all your hard work
